&

Department of Geography,
Nirmala College, Ranchi

**NIRMALA COLLEGE
DORANDA, RANCHI (JHARKHAND)
PIN - 834002
Website : www.nirmalacollegeranchi.com**

About the Seminar

India is the fastest growing economy whose 65% of population is of 35 years or under. There is a great opportunity for channelizing the energy of these youth for economic prosperity. However skill shortage is a big challenge for the country. The impact of globalization on Indian Economy, emergence of free market, formation of international trading blocs, development of new technologies with low half-life periods, the advent of Information Technology, Bio-Technology and the necessity of improving quality to meet the requirements of international markets, have greatly affected business, and forced industry to look for support from academia. On the other hand, the Government, policy makers, educationist, etc., have realized the truth of consistently increasing unstopable number of unskilled and unemployed youth due to the existing pattern of education, and hence, planned efforts are essentially required to make education more meaningful for skill development and to generate employability.

The collaboration between university and industry known as University-Industry Partnership (UIP) or University-Industry Collaboration (UIC) program can be implemented in many sectors such as research, conference events, or student education and learning.

There is increasing recognition by national governments about this collaboration and it is for sure that university-industry partnerships can play a big role in the development of the nation. Again, collaboration between academia and industry has been rather restricted in India, in the past, possibly because of differences in values and attitudes, lack of appreciation of each other's abilities, skills and needs, and the absence of economic compulsions. Yet, the government's relentless effort of "Skill India" and "Make in India" has already begun showing results in the form of "Start up". The seminar will elaborately discuss on the emerging trends in Industry and Academia Collaboration, efforts being made and role played by the two to achieve success.

About Ranchi University

Ranchi University is a pioneer and premier University in Jharkhand state of India. It was established on 12 July, 1960. The University has a total student intake of around ninety thousand student from its affiliated colleges. The University was accredited with B+ grade by the NAAC in 2017.

About Nirmala College

Nirmala College, a Christian minority institution, established in August 1969 by the Sisters of Charity of Jesus and Mary, is now a premier and leading centre of higher education for

women in Jharkhand, affiliated to Ranchi University, Ranchi. The College was re-accredited by the UGC- NAAC in 2015 with Grade B and was awarded the status of **Centre with Potential for Excellence(CPE) by the UGC in 2016**. The College offers U.G. programme in Arts, Science and Commerce and P.G. Programme in five Arts subjects. The College also offers several Vocational (Hons.), Diploma and Certificate courses. There are more than 3000 students on roll and 50 full time faculty members. Nirmala College has a sprawling campus and is equipped with a rich library, modern laboratories and modern teaching aids. The College believes in the motto **"One Heart, One Mind"** and works towards the overall development of the personality of young women.

About Ranchi

Ranchi, the capital of Jharkhand is the educational hub not only for the people of Jharkhand but also for the nearby states. Ranchi is home to several premier institutions like Indian Institute of Management, Central University of Jharkhand, XISS, National University of Study and Research in Law, Birsa Agricultural University, Birla Institute of Technology (Mesra), Rajendra Institute of Medical Sciences, NIFFT, IMS etc. Besides academic institutions, it is the hub of several large and small scale industries. Ranchi the heart of Jharkhand plateau has many beautiful natural spots. Some of the important tourist places in and around Ranchi are- Jonha falls, Hundru falls, Dasam falls, Pahari temple, Sun temple, Jagannath temple, Rajrappa temple, etc. The city is well connected with different parts of the country by rail, air and road. There are two railway stations, Ranchi railway station and Hatia railway station, and one airport.

Focal Theme

Role of Industries in enhancing the quality of Higher Education
