Principal's Message....

"Whatever you do, work heartily, as for the Lord and not for men..."

~ Colossians 3:23

"In a knowledge society, we have to make innovation continuously. Innovation comes through creativity. Creativity comes from beautiful minds."

~ A.P.J. Abdul Kalam

Innovation opens up vistas of new knowledge and new dimensions to our imagination to make everyday life more meaningful, richer

and creative. I am sure there will always be hundreds of creative minds with innovative thinking to nurture novel ideas and inspire our young minds to acquire knowledge with sincerity and integrity. If you have an aim in life and continuously acquire knowledge and work hard with a righteous heart, you will definitely succeed in all your missions. It does not matter who you are.

Today our Education System is under reconstruction with the implementation of the NEP 2020. Keeping in alignment with the vision and mission of the New Education Policy, Nirmala College is fully prepared and equipped to move ahead and scale new heights of excellence in the coming years. I wholeheartedly acknowledge the commendable efforts and initiatives of the institution- its management, teaching and non-teaching staff- in ensuring continual and sustained learning and providing high quality and equitable education for all the students. The collaborative and consistent endeavours of all its stakeholders have, indeed, contributed immensely to the empowerment of the students and transformed them into valuable assets to society and the nation at large. I thank all the members of Nirmala Community for their sincerity, hard work, commitment and dedication in creating a knowledge society imbued with the spirit of 'Cor Unam Anima Una'-'One Heart One Mind'.
